Summary

Java Full Stack Developer with experience in building scalable web applications using Java, Spring Boot, React.js, and PostgreSQL. Skilled in developing RESTful APIs, implementing JWT authentication, and designing responsive user interfaces. Experience with Hibernate, JPA, and database design. Familiar with Agile development, Git version control, and clean coding practices. Strong problem-solving skills and passionate about building efficient and secure applications.

Technical Skills

- Programming Languages: Java, SQL, JavaScript
- Backend : Spring Boot, Spring MVC, Spring Security, RESTful APIs, Hibernate, JPA, JWT Authentication
- Frontend : React.js, HTML, CSS, Tailwind CSS, Bootstrap
- Databases: PostgreSQL, MySQL
- Tools & Technologies: Git, GitHub, Maven, Postman, Docker, Redis, Kafka, Swagger/OpenAPI
- Concepts: Object-Oriented Programming (OOP), Data Structures, Microservices, MVC Architecture, Agile Development, REST API Development

Core Competencies

- Full Stack Web Development, RESTful API Development, Database Design, JWT Authentication, Spring Security, Microservices Architecture, MVC Architecture, Git Version Control, Clean Code Practices

Experience

Java Full Stack Intern – Zidio Development, Bangalore

June 2025 – Aug 2025

- Developed full-stack web applications using Java, Spring Boot, React.js, and PostgreSQL.
- Built and integrated RESTful APIs for authentication, user management, and product modules.
- Implemented JWT authentication and role-based access control for application security.
- Designed database schema and optimized SQL queries, improving response time by ~30%.
- Used Git and GitHub for version control and collaborated in an Agile development environment.

Projects

Udrakala E-Commerce Platform | Java, Spring Boot, React.js, PostgreSQL [GitHub](#)

- Developed a full-stack e-commerce web application using Java, Spring Boot, React.js, and PostgreSQL.
- Implemented user authentication and role-based access control using JWT and Spring Security.
- Built RESTful APIs for product management, order processing, and user management.
- Designed multi-step product upload system with image upload, pricing, and inventory management.
- Integrated React frontend with Spring Boot backend and PostgreSQL database.

Event Management & Booking System | Java, Spring Boot, React.js, PostgreSQL [GitHub](#)

- Developed a full-stack Event Management System using Java, Spring Boot, React.js, and PostgreSQL.
- Designed and developed RESTful APIs for event management, ticket booking, and user authentication.
- Implemented role-based access control and secure authentication using Spring Security and JWT.
- Developed QR code ticket generation, attendance tracking, and email notification system.
- Integrated the React frontend with the Spring Boot backend and PostgreSQL database.

Education

- Bachelor of Computer Application (BCA) – Centurion University of Technology and Management, Chatrapur, Odisha (2022 – 2025) | CGPA: 7.97
- Higher Secondary Education (Science) – Arihant Higher Secondary School, Berhampur, Odisha (2020 – 2022) | Percentage: 62.5%
- Secondary Education (Matriculation) – Saraswati Sishu Bidya Mandir, Chatrapur, Odisha (2020) | Percentage: 52.83%
